ALU CANOPY - EVOLVED

## ALU CANOPY - EVOLVED

Rhino-Cab is made 100% from automotive grade aluminium. Manufactured to our unique design through which high strength and a very low weight of under 65 kg is achieved (standard double cab).

All our canopies are manufactured using the latest in CNC machines and CAD technology. Welding is done in a zero tolerance jig in order to ensure no deforming takes place during welding. The canopy is then finished in a durable powder coat layer.

Rhino-Cab is our high end aluminium canopy model. This model can accommodate modular optional accessories such as the kitchen unit, recovery kit unit etc. It is already fitted with aluminium rails for easy fitment of a roof rack, rooftop tent or any other accessories. Ideal for the 4 x 4 enthusiast who would like to fit all the bells and whistles over time.

## Main Features

- Main body: 3mm Automotive Grade Aluminium.
- Doors: 3mm Aluminium.
- Powder coated.
- Cab sliding window.
- Solid side doors.
- Wide rear door with fixed toughened glass.
- Positive pressure vent.
- Aluminium roof rails.
- Warranty: 2 years.

### Unique Design

Exceptional strength to weight ratio is achieved through our distinct design. Total weight 65kg.

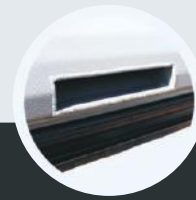

### Hinges

Each door has one continuous waterproof hinge to keep water out even in the open position.

### Doors

Large gullwing doors which allows easy access. Doors are opened by high quality, purpose charged gas struts. Locks are keyed alike for ease of use.

### Positive Pressure Vent

Standard on all models to ensure positive pressure inside while driving to keep dust out.

### Attachment Points

In and on roof to allow easy fitment of bolt on accessories. For example the kitchen unit, roof table, tents etc.

### Paint

Finished in a durable powder coat finish in a variety of options to best suit your individual taste.
